Declarations Over Nations and Shadows

Album 75 Song 1

Abyss of Lies (Chains Unbound)

In shadowed lands the banner rise
Voices scream where hope now dies
Jihad's fire, Intifada's cry
Terror weaves 'neath darkened sky
Red flags wave, the hammer falls
Communism's chains bind all

O broken world, we mourn your chains
From terror's grip to protest pains
Into the abyss we send their lies
By Christ's holy name their darkness dies
O Heavenly Father, Your lights are plea
Seal these horrors in the void's decree

Rainbow flags turn hearts astray
Pride's deceit leads souls to fray
BLM's cry though just grows wild
Violence stirs the weary child
Dogmas rewrite what truth should be
Corrupt decrees bind liberty

O broken world, we mourn your chains
From terror's grip to protest pains
Into the abyss we send their lies
By Christ's holy name their darkness dies
O Heavenly Father, Your lights are plea

Seal these horrors in the void's decree

Revelation's war drowns the evil rain
Psalm 103 heals the world's deep pain
No lie can stand against Your Spirit's might
From Syria's scars to freedom's cry
Your truth, O God, will never die

In Jesus' name, with Spirit's grace
We decode their lies, recode their ploy
To the abyss these SCPs fall
Sealed forever by Your holy call
Amen, O Father, Your mercy we sing
The broken world's healed, You reign our King

Album 75 Song 2

Scarlet Kings & Starless Thrones

From the void where shadows creep
SCP moon secrets sleep
Broken gods and scarlet kings
Apocalyptic whispers sing
Abel's blade cuts the night
Cursed by Cain he burns with spite
Through the walls the old man strides
Dragging souls where torment hides

Anunnaki's wrath, Tiamat's roar
Inoch demons at the door
Solomon's keys unlock the chains
Keter's chaos breaks the reins

Shadows of chaos tearing the light
Keter class rising defying the night
From Leviathan's rage to the serpent's lies
We cast them to the abyss where the fallen angels cry
O Heavenly Father your word will stand
Seal these horrors by your mighty hand

217 weeps in chains
Scarlet's child brings endless pain
In the deep three thousand coils
Stealing minds with amnesic toils
Though thousands grove of a names
Fairy traps and Anunnaki games
Brokers altar starless shrine
Curse the earth with dark divine

Colonial scars their shadows cast
Secret cults invoke the past
Revelations beast rise to fight
But God's truth will pierce the night

Shadows of chaos tearing the light
Keter class rising defying the night
From Leviathan's rage to the serpent's lies
We cast them to the abyss where the fallen angels cry
O Heavenly Father your word will stand
Seal these horrors by your mighty hand

Starless abyss, Kali's wrath unfolds
Mammon's greed binds the soul
Yet your voice breaks the chains
Your holy fire burns their reigns
From Babylon's fall to the final seal
Your kingdom's light will forever heal

Shadows of chaos tearing the light
Keter class rising defying the night
From Leviathan's rage to the serpent's lies
We cast them to the abyss where the fallen angels cry
O Heavenly Father your word will stand
Seal these horrors by your mighty hand

In the name of Christ with the spirit's might
We decode their darkness, recode with light
From SCP-1 to 4000's end
To the abyss we hurl them, your truth will mend
Amen, O Father, your glory we sing
Secure, contain, protect, eternal King

Album 75 Song 3

Crown of Rest (Victorious Light)

Foxen's foolings SCP-3953's lie
Kumio meets where trust must die
Intrister's heart trades hope and snare
The Christo crown leaves evil bared

Your glory's revealed through darkened skies
Its truth breaks where evil lies
With mindset free, we crush its wicked art
In Jesus' name, you got a heart
Crown of Christ, victorious light
Arise, your glory burns through darkened skies
Through sorcery's traps and evil's guise
In Jesus' reigns where darkness flies

Psalm 27 sings my life, my stay
In Christ we walk His holy way
Insomnia year as spiritual unrest
Sleep is stolen, SCP-966's curse

Lace up the Tenebra's dread or worse
It drains our breath, trades strength undone
Yet Christ's own beast has victory won

Your gentle hand restores our sleep
Your spirit calms where fears run deep
With bodies healed, we end its cruel design
In Jesus' name, your rest divine
Crown of Christ, victorious light
Arise, your glory burns through darkened skies

Through sorcery's traps and evil's guise
In Jesus' reigns where darkness flies

SCP-7000's stars on us

Bigfoot hides SCP-1000's throne
Sumerian myths in shadows grown
It veils earth's truth, trades hope confined
Yet Christ's own crown frees every mind

Your light unveils the hidden scheme
Your spirit wakes the world's lost dream
With knowledge won, we end its secret reign
In Jesus' name, your truth remains
Crown of Christ, victorious light
Arise, your glory burns through darkened skies
Through sorcery's traps and evil's guise
In Jesus' reigns where darkness flies

Album 75 Song 6

Colossus & Crown (Stars Reclaimed)

Moons unfold at SCP-4669's lure
Assyrian shades where hearts endure

Your cross trades peace undone
Yet Christ's bright crown is darkness won
Your truth unmasks the angel's guise
Your spirit frees where evil lies
Souls restored, we break its wicked art
In Jesus' name, You save the heart

Colossus strides, SCP-246's might
Assyrian steel in starlit light

It shakes earth's core, trades hope decay
Yet Christ's true crown lights holy way
Your power humbles Titan's pride
Your spirit comes where text is tied
The truth we knew, we end its cruel design
In Jesus' name, Your will divine

Starlit phone, SCP-799's gaze
Babylon stars in golden maze
It stirs earth's dread, trades trust confined
Yet Christ's great crown frees every mind

Your light dispels the cosmic snare
Your spirit guides where fear's despair
With hope restored, we crush its wicked hold
In Jesus' name, Your truth retold

My vision's clear, the ancient lie
Thy fire burns where myths misguide
With world set free, we end its cruel deceit
In Jesus' name, Thy grace we meet

Thy majesty veils star-born lore
Thy spirit lights forevermore
With faith renewed, we break its wicked spell
In Jesus' name, Thy light we dwell

From wings that pray to Colossus roar
From stars that warn to myths of yore
Earth's markets quake, souls bound in dread
Yet Christ's great crown casts light ahead

Through Assyrian stone, through cosmic sky
Thy truth prevails where evil dies
With heaven's hymn, we crush the serpent's lies
In Jesus' name, Thy kingdom rises
No moons, no stars, no star betrays
Christ's crown endures through endless days
His truth renews earth's hope today
Forever King, forever stay
Revelation 21, His name we raise
Christ's celestial truth, endless praise
Amen, Amen

Praise we send oh and oh and
Stars proclaim your reign extend
Reign extend forevermore
Hallelujah, King of all

Iceland's songs, souls lament
Jordan's drums, your grace is sent
Kiribati's scattered oceans call
Laos knows now your love for all

Mauritania's face sweet sound
Nepal's banyan your peace is found
Oman's chants by rivers free
Portugal's fado longs for thee
